COLORED CHIPS AND MULCH

Colored Wood Mulch & Chips are made from carefully selected recycled and virgin forest woods, then dyed with natural, organic mineral pigments. Our colored landscape material is nontoxic, and is perfect for accenting planted areas, where its attractive color and natural insulating ability helps to suppress weeds, hold moisture in the soil, and protect sensitive plant and tree roots from the extreme heat of valley summers. With a verity of colors available including; **Midnight Black**, **Sunset Red**, **Forrest Brown**
